

# The Peep Squirrel™ Binding Machine

**No more hand folding your binding strips!  
One versatile machine makes binders for any size print.**

**The Peep Squirrel™ Binding Machine** quickly and easily folds binding strips for your AEC drawings. The paper is continuously folded as it passes through the slotted dies of the patented binding machine. Simply pull the paper through the machine and cut off the length you need.

**Two binding machine sizes are available.** The small machine makes a 1" binder that binds up to 35 sheets. The large machine makes a 1½" binder that binds up to 100 sheets. Binder roll paper is 60# offset with 30% post-consumer recycled content.

**Advertise your firm with custom printed binders.** Custom printing is available for the same price, and a variety of colors are available. Standard colors are black, blue, red, green, orange and white. Or, have your binders printed in any Pantone color to match your corporate color. Printing can either be positive or **reversed**.

**Call, fax, e-mail, or visit our web site to order.** Satisfaction guaranteed or your money back.

**Peep Squirrel™ Pre-Cut Binding Strips** are also available to compliment, or as an alternative to, The Peep Squirrel™ Binding Machine & Binder Rolls.
